Full Stack Software Engineer with 2 years of experience designing, developing, and maintaining scalable enterprise web applications and cloud-native services using React.js, Node.js, and TypeScript. Proven track record of owning end-to-end feature delivery across the full stack from building dynamic, responsive front-end interfaces to architecting serverless RESTful APIs, event-driven microservices, and NoSQL database solutions. Adept at optimizing full-stack system performance, maintaining CI/CD pipelines, and collaborating across cross-functional Agile teams to deliver high-availability software.

SKILLS

- **Frontend:** JavaScript (ES6+), TypeScript, React.js, HTML5, CSS3, Responsive UI/UX, Accessibility (WCAG).
- **Backend:** Node.js, Express.js, RESTful APIs, Microservices Architecture, Domain-Driven Design (DDD), API Gateway
- **Databases & Messaging:** Firestore (NoSQL), MongoDB (NoSQL), Cloud SQL.
- **Cloud & Serverless:** Google Cloud Platform (Gen-2 Cloud Functions, Cloud Run, App Engine, Pub/Sub), Azure App Services, Serverless Architectures.
- **Testing, DevOps & Tools:** [Jest / Mocha], Unit & Integration Testing, [Test-Driven Development (TDD)], CI/CD Pipelines, [Docker / Containerization], Git, GitHub, Azure DevOps, Agile/Scrum

WORK EXPERIENCE

Accenture India, Bangalore | Associate Software Engineer **Nov 2024 - Present.**
Manage My Team - Resource & Project Management Platform (Accenture Product)

- **End-to-End Full Stack Delivery:** Owned full-lifecycle engineering of core production-grade platform modules across front-end interfaces, back-end RESTful APIs, deployment, and production support.
- **Front-End Architecture:** Designed and built dynamic, reusable **React.js** and **TypeScript** UI component libraries supporting role-based access control (RBAC), custom renderers, and dynamic configuration.
- **Microservices & API Gateway:** Developed scalable **Node.js** and **TypeScript** microservices using Domain-Driven Design (DDD) principles, and implemented an **Express.js API Gateway** deployed on **Google Cloud Run** and **App Engine**.
- **Serverless & NoSQL Data Management:** Engineered serverless back-end **RESTful APIs** using **Google Cloud Functions (Gen-2)** and **Firestore (NoSQL)**, managing authentication, request validation, low-latency data retrieval, and HTTP lifecycle operations.
- **Event-Driven Workflows & Execution:** Implemented asynchronous event-driven workflows using **Google Pub/Sub** and delivered feature updates ahead of schedule with a 95% first-pass peer review approval rate.
- **Agile Collaboration & Quality Assurance:** Collaborated with **3+ cross-functional teams** in an Agile/Scrum environment, maintaining code quality through unit and integration testing, performance debugging, peer code reviews, and Git workflows.

PROJECTS

AlgoNode | Click Here

- Launched a responsive Data Structures and Algorithms learning platform, delivering 60+ interactive problems across a structured 4-phase roadmap.
- Scaled UI architecture by implementing a custom component registry pattern, reducing frontend code redundancy by 25%.
- Designed an accessible UI with a custom CSS system and semantic HTML, ensuring web accessibility and SEO compliance.

Sushi Site User Interface | Sushi Site

- Delivered a fully responsive and interactive React.js user interface showcasing sushi varieties with smooth animations.
- Achieved seamless performance across devices and screen sizes.
- Integrated real-time state updates and animations to improve user experience, increasing session duration by 20%.

Ayurvedic Doshas Assessment tool: Health and Nutrition for all.

- Developed a React js based responsive UI integrated with AI-powered backend services to deliver personalized health recommendations.
- Implemented accessibility compliance and optimized UI performance across devices.

Driver Drowsiness Detection System

- Constructed a real-time frontend dashboard using React.js and Chart.js, enabling visualization of driver alertness.
- Improved overall system architecture, improving safety through effective UI/UX design.

EDUCATION

SG Balekundri Institute of Technology — Belgaum, India
B.E. Computer Science and Engineering; **2021 - 2024**

Maratha Mandal Polytechnic — Belgaum, India
Diploma in Computer Science and Engineering; **2018 - 2021**

ACHIEVEMENTS

- **Agile Recognition & Hackathons:** Recognized for effective cross-team sprint collaboration at Accenture; active participant in software hackathons and secured 2nd Place in Samveekshana (National-Level Tech Fest).
- **Leadership:** Served as Event Coordinator for Glance Cam (national-level event) and competed in 2 international photography competitions.
